

### Services by doctor for elective services

You can get yourself treated personally by one of our leading physicians and thus ensure the special expert qualifications and experience of the doctor. The directory of doctors for elective services will be issued to you upon receiving your signature, or we will be pleased to send it you in advance. Charges for services by a doctor for elective services are calculated by us in accordance with the official scale of fees for physicians (GOÄ). You will certainly receive all medically necessary services even without conclusion of an agreement for elective services. Which doctor will treat you is decided according to the respective medical need.

### Patient information

# Recover with many extra facilities

## Our elective services

## Dear patient,

In our clinic, we offer services of your choice and facilities for your comfort and with it, a service designed to make your stay with us as pleasant as possible. You can make use of our private medical treatment and/or utilise comfortable accommodation offers. These services are available to you with a private insurance, a private supplementary insurance or even as a self-payer. In case of a planned stay, we recommend that you arrange the cost coverage in advance with your insurance.

We wish you a pleasant stay in our clinic.
